HARD SKILLS

- Programming Languages: Java, C++, Python, Javascript
- Frameworks & Tools: Spring, Maven, Git, Android Studio, HTML/CSS, SQL, UNIX
- Software Development: Object-Oriented Programming, Doxygen-Style Documentation, Unit Testing, CRUD, Application Layering

ADDITIONAL INFORMATION

Languages:

- Tagalog(Filipino) - Native / Fluent
- Japanese - Intermediate / Conversational

OBJECTIVE

Motivated and detail-oriented Software Engineer with a solid foundation in programming and software development. Seeking an opportunity to apply and expand technical skills in a collaborative environment while contributing to innovative projects.

EDUCATION

Northern Illinois University

- BACHELOR'S OF SCIENCE - Magna Cum Laude - 3.662 GPA
- Computer Science: Software Development
- Graduated: December 2023

HTD Talent - Java Accelerator Course

- Five-week high intensity training course dedicated to bridging the gap between skills of new graduates and expectations of established employees in the tech industry.
- Engaged in meetings with several senior developers to discuss feedback on projects, and ways to improve work efficiency.
- Technologies and Concepts: Java, Git, Unit Testing, OOP, CRUD, Layered Architecture
- Completed: June 2025

PROJECTS

UNDERGRADUATE FELLOWSHIP PROGRAM - NIU CS DEPARTMENT

JUNE - AUGUST 2022

- Designed and tested C++ 27 sample assignments for future CSCI courses, ensuring appropriate difficulty levels and usability.
- Collaborated with peers to develop C++ 5 prototype group projects, emphasizing teamwork and problem-solving.
- Provided feedback on project outcomes to enhance course material effectiveness.

HTD TALENT - JAVA ACCELERATOR COURSE MASTERY PROJECT

JUNE 2025

Github link: https://github.com/TDP07420/dont_wreck_my_house

- Developed an Airbnb-style application using Java, Spring, Maven and JUnit within one week. Implemented core features including guest-host matching and full CRUD functionality for reservations, applying layered architecture principles and unit testing.
- Allows an administrator to match guests with hosts and manage reservations across date ranges.
- Enabled reservation creation, editing, and cancellation through an administrative interface.
